

New Way to Stay at Home

Meditech is proud to be a service provider for New Way to Stay.

Naturally, we would all prefer to stay in the comfort of our own homes rather than moving into an aged care facility as we grow older. A new organisation based on Sydney's Northern Beaches is providing solutions to achieve this for many clients that thought it may not be possible to remain at home.

“New Way to Stay” is a specialist in managing innovative solutions to achieve positive outcomes in home based aged care.

Come along to the information evening to see how equity can be released from assets to fund in home care, home modifications and specialist equipment by providing individually planned solutions to assist you to remain comfortably and safely in your own home.

Hear from experts including Meditech staff as to how you can take control of your own destiny.
